

Introduction

This is a direct port of the [chia bls typescript library](#)[↗]. Coding style and naming have been converted to C# conventions but otherwise it is very similar in API.

All of the unit tests from the original project have been ported and pass.

chia and its logo are the registered trademark or trademark of Chia Network, Inc. in the United States and worldwide.

Namespace chia.dotnet.clvm

Classes

[CompileOptions](#)

Represents the options for compiling a CLVM program.

[Cons](#)

Represents a cons cell in a program.

[OperatorsType](#)

Represents a collection of operators used in the CLVM language.
